

3d Brain Atlas Reconstructor Publications

If you used 3D Brain Atlas Reconstructor (standalone software) as a part of a research project, please cite the following paper:

Majka, P., Kublik, E., Furga, G., & Wójcik, D. K. (2012). Common atlas format and 3D brain atlas reconstructor: infrastructure for constructing 3D brain atlases. *Neuroinformatics*, 10(2), 181-197.
<http://doi.org/10.1007/s12021-011-9138-6> .

When referencing the 3d Brain Atlas Reconstructor Web Service please include a bibliographical reference to the paper below and link to the website:

Majka, P., Kowalski, J. M., Chłodzinska, N., & Wójcik, D. K. (2013). 3D Brain Atlas Reconstructor Service-Online Repository of Three-Dimensional Models of Brain Structures. *Neuroinformatics*, 11(4), 507-518.
<http://doi.org/10.1007/s12021-013-9199-9> .

In addition, when using CAF datasets provided with the software, please also reference the original atlases based on which the models were generated. These can be found on the *Summary* tab as shown on the image below:

Thank you.
