3d Brain Atlas Reconstructor on-line service

getCafInfo

Return the index file of selected CAF dataset. Index file contains list of structures available for reconstruction, their hierarchy and list of slides within given dataset.

syntax

```
getCafInfo?cafDatasetName=<name>
          [;listStructures=(True|False)]
          [;listHierarchy=(True|False)]
          [;listSlides=(True|False)]
```

Required arguments

cafDatasetName
: The service identifier of the selected CAF dataset.

Optional arguments

All optional arguments may be set to True or False with True as default.

listStructures
: Indicates if information about structures has to be included in the CAF index file.

listHierarchy
: Indicates if information about structures hierarchy has to be included in the CAF index file.

listSlides
: Indicates if information about slides has to be included.
